**CONSIDERATION: Trademark License Renewal Agreement for Hobart Pop Warner Little Scholars, Inc.:** Superintendent Peggy Buffington presented a renewal trademark license agreement with Hobart Pop Warner Little Scholars, Inc. to use the Yohan logo in connection with the uniforms worn by student athletes and on their coaches' shirts for the 2024 season. The new agreement will expire on April 30, 2025. She noted that no changes were requested from last year's agreement of using the logo on the coaches' shirts (either on front left chest or center tag line on back) and the pants of the uniforms (front waist line). A copy of the agreement was included in the electronic meeting information.

Karen Robbins moved that the Board renew the trademark license agreement with the Hobart Pop Warner Little Scholars, Inc. as presented and authorize the superintendent to sign the agreement on behalf of the School City of Hobart. Seconded by Rikki Guthrie.

In discussion, Mr. Keehn mentioned that he had read the resolution and noted the possibility of some duplicate verbiage, and Mrs. Schoon noted that the appearance of the signed agreements do not always look as clean and neat as the original because they have been transmitted as pdf copies to and from the designee electronically.

Vote on motion: Aye – Rogers, Robbins, Schultz, Hillan, Guthrie, and Butler. Motion carried 6-0 in favor.

**EXTENDED/OVERNIGHT STUDENT TRIP: HHS JROTC 2024 Cadet Leadership Challenge Summer Camp:** Dr. Peggy Buffington presented and recommended approval for the 2024 JROTC Cadet Leadership Challenge (JCLC) Summer Camp would be held at Camp Atterbury near Edinburg, Indiana, from June 17 to 22, 2024. She noted the focus of the camp was leadership development and adventure training, not combat training, and the activities included rappelling, map reading, land navigation, water survival, and physical fitness. The Director of Army Instruction for the Indianapolis Public Schools is the Camp Commandant and his staff has the primary responsibility for planning and execution, and there would be a one to ten ratio of certified JROTC instructors to cadets.

LTC Buhmann and a group of 14-20 cadets in grades 9-11 would be attending the competition, and the group, if no more than 14, and LTC Buhmann would travel in a district activity bus. If more than 14 cadets attend, they would travel in a district school bus. The cadets will stay in troop barracks and will eat in the military dining halls. There is no cost for the cadets because the Army will furnish all meals and lodging.

Dr. Buffington requested Board action for the overnight trip for the JROTC.

Stuart Schultz moved and Donald Rogers seconded that the Board approve the request for the JROTC 2024 Cadet Leadership Camp Atterbury, as presented. Vote on motion: Aye – Rogers, Robbins, Schultz, Hillan, Guthrie, and Butler. Motion carried 6-0 in favor.

**OVERNIGHT STUDENT TRIP REQUEST: Hobart Middle School Natural Helpers Spring Retreat:** Superintendent Peggy Buffington reviewed the request for the Hobart Middle School Natural Helper's Retreat to Cedar Lake Ministries in Cedar Lake. She noted that around 30-35 seventh and eighth graders will be traveling by school bus, leaving on May 3 and returning on May 4, 2024. Erin Swafford, and Scott Swanson will be leading the retreat, and two teachers, Leo Guzman and Dianna Ciszewski, will be chaperoning. The Natural Helpers retreat offers selected students an opportunity to experience a weekend of leadership, team building, and dealing with difficult situations as teens in order to create a more positive environment for all students at the middle school. The program helps to address the topic of bullying, along with drug and alcohol preventions, peer pressure, life skills, and leadership. Dr. Buffington mentioned the retreats were "a positive environment for the students" and was one of the activities that the attendees always remember and comment about. She said the retreat "helped them become leaders."

Dr. Buffington recommended approval and requested Board action.

Donald Rogers moved that the Board approve the Natural Helper's overnight study trip, as presented. Rikki Guthrie seconded. Vote on motion: Aye – Rogers, Robbins, Schultz, Hillan, Guthrie, and Butler. Motion carried 6-0 in favor.

**RECOMMENDATION TO ACCEPT: IDOE Title IV – A Grant:** Dr. Peggy Buffington and Dr. Tim Krieg, Director of Secondary Education, highlighted the Indiana Department of Education (IDOE) Title IV-A grant that the district received in the amount of \$54,788.36. Last year's grant award was \$51,441.85. Dr. Krieg said the district was thankful to receive the grant to fund personnel and resources and said the district does not turn down grant monies. Dr. Buffington noted that the grant would offset the cost of the counselor at the Early Learning Center (ELC) and said the counselor was doing “an amazing job.” Dr. Buffington commented that the original Title IV-A grant was a competitive grant that she and Dr. Krieg applied for when Dr. Krieg “was as green as green can be.” Since then, it has become an annual allocation grant. Dr. Buffington indicated that when the ELC started, counselors from the elementary schools were there on a part-time basis, and this grant allowed for the school to have a full-time counselor.

Dr. Buffington requested Board action to approve the grant.

Rikki Guthrie moved and Stuart Schultz seconded that the Board accept the Title IV, Part A grant from the Indiana Department of Education and authorize the superintendent or her designee to execute any necessary documents for the grant.

In the discussion, Terry Butler inquired about the increase in the grant amount from the previous year and wondered if that meant the district's poverty level had increased like it does with a Title I grant. Dr. Buffington indicated that this grant was not like Title I and agreed with him that increased funding with Title I grants happens when the poverty level has also increased. Mrs. Hillan responded that currently, Title I was tied to “census poverty data,” and this was dependent on the area you are in. She commented that the district she works in “was all over the place,” and they never know what it will be.

Vote on motion: Aye – Rogers, Robbins, Schultz, Hillan, Guthrie, and Butler. Motion carried 6-0 in favor.

**UPDATES/ANNOUNCEMENTS/REPORTS:** The Board received the following information:

- School Information – weekly agendas from all of the schools except Veterans and Hobart High School, and two editions of the BricksCenter newsletter. In addition, the latest edition of the JROTC newsletter, *Cadet Life*, was included.

Dr. Buffington commented on the upcoming eclipse and said that everything had been done that the insurance company required to protect the district's liability. She mentioned it was going get really through the end of the school year.

**COMMENTS:** From the administration, Dr. Buffington told Amanda Guthrie that the next cooking Voice and Choice was going to be a pizza party and hoped she had signed up for it, since she was “a frequent flyer” in the class. Amanda was signed up. Dr. Buffington told the Board that turn-out for the eighth grade parent night at the high school last night was “phenomenal.” She was pleased with the presentation, the interaction of the parents, as well, and said the parents were pleased with the opportunities offered for their children. She complimented the high school administrators for doing a great job and said Angelina Zepeda did a wonderful job speaking about the opportunities from her own personal experience. She told the audience that she would be attending Boston University, which Dr. Buffington had not heard until her presentation. Dr. Buffington told Angelina to be sure she has a transcript when signing up for classes so she can advocate for the college coursework she has taken at Hobart University. She noted that a former Hobart graduate went to college in the Boston area, and the college would not accept any of the college credits earned in high school. Dr. Buffington

said that Madelyn Burton had planned to attend the parent night, but she was ill and was why she was not at tonight's meeting. Dr. Buffington indicated that all of the student representatives who have served on the Board were outstanding students. However, the past few years they have undertaken more responsibilities in their positions, and she said Angelina and Madelyn have been "amazing Brickies." Dr. Buffington told the Board that she and Janice Ryba, CEO of St. Mary's Medical Center will be meeting with the Commission of Higher Education later this month speaking with them about the school district/employer partnership that we have. She noted that many employers don't know how to form such partnerships. Dr. Buffington that this year's SAT results showed a huge improvement for our seniors. The administrators stressed using Khan Academy for 30 minutes a day because it has been proven to help students raise their SAT scores. Don Rogers' popcorn was one of the first motivations used during the testing process to raise test scores and for those who passed the SAT, they will be getting a sundae bar/Kona ice because they were the students' top two choices. Dr. Buffington also spoke about the state's ILEARN and IREAD-3 testing programs. It was noted these are one-time assessment tests. Students are getting ready for ILEARN testing later this month and the IREAD-3 testing for second and third graders was done last month. The test was adaptive and was not a timed test. Scores were lower than previous years. She thought something was wrong with the state's assessment and it not measuring what has been taught. Dr. Buffington mentioned that around 75 Early College students have stopped work or are in the senioritis stage of the year. She said they need to keep working or they would have to do mandatory credit recovery. Bob Glover offered his congratulations to the high school on the improved test scores and knew they had wanted this outcome for a long time. Chris King offered his congratulations to those recognized and also to Angelina Zepeda on her college selection. Jon Mock echoed the prior comments, offered his thanks to Dr. Buffington and Dr. Krieg, and noted his appreciation to all of the district's administrative professionals. He said the administrators "could not live without them." Since he was not at the last two Board meetings, he mentioned he was glad to see everyone. Dr. Tim Krieg echoed the previous comments about the administrative professionals. He mentioned he works with the seniors working on their A.S. degrees in their Capstone class through Ivy Tech, and he has had the opportunity to see their digital profiles from fifth grade through their senior year in high school. He highlighted some of Angelina's many activities/accomplishments from her capstone. Dr. Krieg noted that these students will leave Hobart High School with two years of college and thought it was an amazing opportunity for our students. He mentioned that Hobart's team has weekly contact with representatives from the Khan organization regarding their programs, and Dr. Krieg extended his thanks to Chris King and the Technology Department for their work with the ILEARN practice test for our students. .

From the Board, Don Rogers did not have any comments but was thanked for his popcorn, and he commented that he "didn't realize it was brain food." Karen Robbins extended her congratulation to Angelina Zepeda and thanked Pat Schoon for her work with the Board. She commented on seeing Amanda Guthrie running by her home in all kinds of weather. Stu Schultz extended his congratulations to Angelina, as well, and he thanked the administrators for all that they do. Angelina Zepeda offered her congratulations to all of the administrative professionals for all they do, and she thanked Dr. Buffington for her "kind words." Sandi Hillan congratulated Angelina and said she continues to be impressed by her. She thanked all the volunteers including her fellow Board members, Don Rogers, Karen Robbins, and Terry Butler, for giving of themselves and their time and going "above and beyond." She noted that she watched Amanda Guthrie when she was very young. She extended her "kudos" to everyone for the improved student test scores. She told everyone that her "jaw dropped" when she read how much the scores improved, and she thanked the whole team for all of their efforts to do this. Rikki Guthrie commented she was not "against incentivizing students" for their hard work. She said it was an investment in them and their success and hoped that the community and parents recognize this, too. She extended her congratulations to Angelina and hoped she has snow shoes for next year. She thanked Pat Schoon for keeping the board in line and noted she was appreciated. Terry Butler extended his congratulations to Angelina Zepeda and thanked Pat Schoon and all of the other administrative professionals in the district for all that they do. He commented that Khanmigo assists a student in understanding and learning their how to do problems and will not accept anything less than 100%. The student works the problem over and over to reach that goal and get stronger in the subject area. He said it was useful to parents when they are able to observe the use of the program with their student. Dr. Buffington mentioned that one of our EL students wanted to ask Sal Khan, who was an immigrant, a question on how he became a successful, international CEO here in the United States. Because of her friendship with Sal Khan, she asked him about doing this, and he agreed. This will be done through a virtual Town Hall so students and teachers throughout the school district will be able to stream with Mr. Khan where he will be answering at least ten students' questions and hopefully a couple more from the over 700 student questions that were submitted. It was noted this will be a tremendous undertaking our Technology Department. Dr. Buffington mentioned that Mr. Khan developed Khan Academy because his nephew needed help with math. Then, when "guard rails" were needed with A-I, he developed Khanmigo, and she was proud of how our teachers have embraced using the program. She said the elementary students really like the program, the middle school students are not as fond about using it, and the high school students just want the answer so they use other A-I Chabot's. Mr. Butler told Angelina that it seems when students go to Boston for college, they seem to stay there and not return to our area. He also noted that because of the road construction south and west of town, plan on an extended delay at Marcella and 61st Avenue. The delay for the construction of the roundabout at Cleveland Avenue and Route 51 was also mentioned, and Mr. Mock thought the delay would probably mean the completion date for the roundabout would happen during apple season at the orchard. Because of all the chaos with road closures throughout the city, Sandi Hillan could not comprehend how the Transportation Department was handling the issue. Dr. Buffington said there was a lot of frustration, but they

use their routing software to re-route around the road closers. Mr. Butler shared a tidbit of information about cutting through a business parking lot and said it was not illegal to do so as long as you “stop before leaving the parking lot.”

There were no audience comments.

**ADJOURNMENT:** There being no further business to come before the Board, President Butler adjourned the meeting around 7:50 p.m.

**NEXT MEETING:** The next regular session meeting is April 18, 2024.
