Vocabulary in Action

Word of the Week

DEFINE

*to explain the meaning of a word (or something)

"The teacher asked the students to *define* the word "contrast.""**IMPORTANT TEACHER TO DO:**

- We have an incredible amount of parents emailing, messaging and calling the office to change their child's dismissal plan for the day. Please remind parents they have to send a note. We ask that they only call in the event of an emergency. Remind them that you don't always see messages and emails during a school day. Making changes during the day leaves room for error. We want to be proactive and get their children home safely.
- Do you have students completing modules in Fast Math? The students love to here their name on the announcements and receive their Dairy Queen Coupon! Remember to email me and I will announce.
- Project Based Learning is in your curriculum maps, at least one per semester. They are artifacts in the portfolio-real, relevant, and engaging work!
- Your Crisis Go will prompt you to check in even if you are out of the building. I would appreciate you utilizing the option, "*I am not here today*," so we can account for all staff members. It is one of the choices you have to check in.
- Let us know if you have students you have attendance concerns on. This includes tardies. After 5 tardies students serve a lunch detention.
- The ELC has adopted the phrasing with their students: "Is that a strong choice or a weak choice" in lieu of good choice/bad choice. Many children view being bad as being strong and good as that you are weak. I have been using this language with students in the office.
- We have been reminding parents in our notables on the importance of teaching responsibility. We want our students to be responsible Brickies and come to school each day with their

necessary learning tools. We have many parents dropping materials of in the vestibule. Please help with this reminder.

- Either place a copy of your Class Spreadsheet in my mailbox or send a copy via email now that all students have taken the RI and mid year Envisions Math assessment.
- Be sure to include information on where your safe zone is in your substitute teacher plans.
- Attendance should be posted no later than 9:15 am. If you mark a student absent and they then arrive change it to a tardy.
- Promote excellent attendance!

STELLAR STAFF CELEBRATIONS - PEPPER EFFECT

PLEASE NOMINATE ONE OF YOUR COLLEAGUES MEETING THE CRITERIA

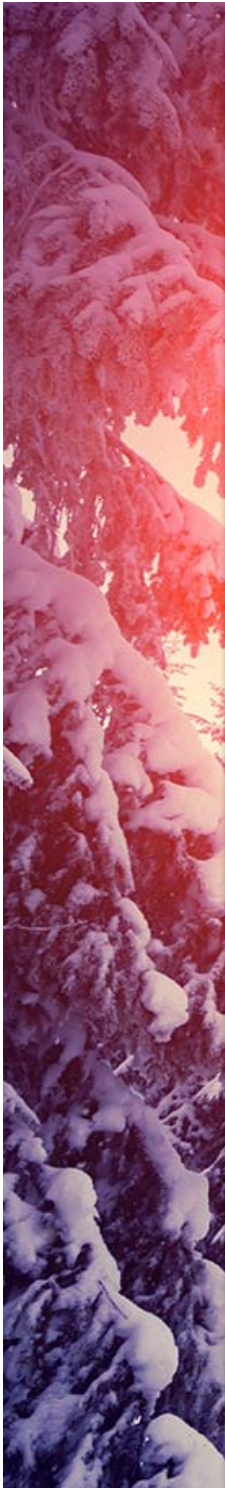

Take a Sad Song and Make it Better....Nominate someone who is always able to turn things into a positive - send me an email WHY this person should be nominated! :)

Fire Drill Reminders

Please be sure to continue to follow the procedures below...

- When you hear the alarm sound, immediately move your students to the SAFE ZONE in your classroom and wait for instructions to EVACUATE.
- Check the hallway.
- Leave your lights on and door open (this allows admin to quickly check for anyone and admin will turn off the lights and close the door as a way to communicate the room has been cleared)
- Take your device that has Crisis Go .
- Once you are safely out of the building and have taken oral attendance, CHECK IN using the Crisis Go app that will be prompted on your screen and message the first and last names of any students you are missing (not absent).

FIRE DRILL PROTOCOL		
<p>Script We Will Use:</p> <p>When you hear the fire alarm sound - it will stop. Please remain in your classroom and listen for directions. We will let you know when to Evacuate after the alarm stops. You will hear the announcement "Please evacuate."</p>	<p>Additional Pieces:.</p> <ol style="list-style-type: none"> 1. We should not discuss we are waiting – or other safety measures. 2. When we evacuate – need space for HPD and HFD – they are practicing drills too – parents will be calling – your response. 3. Evacuation different for a an active shooter verses fire – you have evacuation centers for fire – active shooter – after ALiCE – Options for Evacuation – wherever you can go - fleeing perp – based on good intel and instructions. 4. We discussed they will know announced drills – and if it goes off and drill not specified – they go to safe zone until given instruction to evacuate or stay in safe zone with a lockdown
