Subject: Adult lunch price increase

Hello Everyone,

I need to confess that I have made an error and that it will affect those of you who support our school lunch program.

Each year, Food Service Directors must calculate meal prices for the upcoming school year using a formula from the USDA. While completing the formula for adult lunch meal prices, I completed my calculations using the incorrect reimbursement rates. We are receiving higher reimbursements for the meals that we are serving during the pandemic due to the increased costs, labor and supply issues.

I should have completed the adult meal calculations using the higher reimbursement rates, but didn't.

Unfortunately, the adult meal prices will need to increase by 0.60 effective tomorrow October 5, 2021. Current price, \$4.00 and the new price will be \$4.60.

On a positive note, we hope that you are enjoying some of our new menu items that we are creating due to the supply shortages. Homemade meatballs, enchiladas, lasagna, Salisbury steaks, fresh baked sub buns, and more!
I sincerely hope that the "from scratch" menus make up for the price increase.

Again, my apologies for the short notice on the necessary price increase.

Very sincerely,
Nancy Smith

Nancy Smith
