RE: Textbook Adoption Recommendation

As we prepare for the 2021–2022 school year, the digital curricular consumable outlined below is recommended for approval. This recommendation maintains alignment with curriculum standards established by the Indiana Department of Education and implemented by the School City of Hobart.

The digital access provided by *Glencoe Health 2022* © provides high-school students with age-appropriate content aligned with the National Health Education Standards. As stated by the CDC (2021), "School-based health education helps adolescents acquire functional health knowledge, and strengthens attitudes, beliefs, and practice skills needed to adopt and maintain healthy behaviors throughout their lives."

This research-based program thereby concentrates on the development and application of critical knowledge and skills during a crucial period in students' lives. Published in January of 2021, this digital text emphasizes social and emotional skills while exploring up-to-date information and statistics on timely, relevant topics.

Additionally, this text vertically aligns with the *Glencoe Teen Health* digital text adopted during the 2020-2021 school year for the 8th grade Health program at Hobart Middle School. As with the *Glencoe Teen Health* text, the *Glencoe Health 2022* © program's robust text and supplemental student and teacher resources explore information and statistics on timely, relevant topics through its use of multiple modalities, including Canvas as our learning management system.

As illustrated below, the Cost / Student amount offers a fiscally responsible way of addressing this pressing need for our staff and students.

Course(s) / Grade(s)	Material(s)	Book / ISBN	Cost / Student
Health / Hobart High School	CUS Glencoe Health, Digital Student Center, 1 YR Subscription	9781264320257	\$24.24

Sincerely,

Dr. Timothy R. Krieg, Ph.D.

Director of Secondary Curriculum

School City of Hobart
