Average Daily Membership (“ADM”)

Average Daily Membership data provided by the Indiana Department of Education.

For years 2012 through 2013, ADM was used to determine calendar year funding of tuition support for school corporations. The ADM shown is the ADM that applied to the calendar year listed.

Since 2014, two count days have occurred – one in September and one in February. For all years displayed but 2018 and 2019, tuition support was adjusted based on each count. For years 2018 and 2019, the February count did not impact tuition support, but the counts are displayed on this indicator for informational purposes.

Starting the Fall 2015 count for fiscal year 2016, full day kindergarten students were counted as 1. Prior to that time, these students were counted as ½.

Beginning with the fall count date for the 2019-2020 school year (shown as the fall count for calendar year 2020), school corporations differentiated between students that receive instruction in-person and students that receive instruction virtually. The level of tuition support differs for those students attending virtually. For the 2020-2021 school year, students receiving instruction virtually due to COVID-19 are included in the in-person count for the purposes of this indicator, as tuition support funding for these students is the same as students attending in-person.
